TECHNICAL SKILLS

- o **Languages:** Java, JavaScript, TypeScript, Python, C++, C, Go
- o **Web Technologies:** HTML, CSS, React.js, Next.js, Tailwind CSS, Bootstrap, Framer Motion, WebRTC, WebSocket, Socket.IO
- o **Backend & Runtime:** Node.js, Express.js, FastAPI, JWT, OAuth, Microservices, REST APIs
- o **Databases:** MongoDB, MySQL, PostgreSQL, Redis
- o **Automation & Tools:** Selenium, Playwright, Bash Scripting, VS Code, Postman, Docker, Git, Linux CLI

EXPERIENCE

Turing | S2 Annotator — CUA Trajectory Specialist (*Remote, Contract* | *US-based*)

April 2026 – Present

- o Producing and validating AI training data (SFT trajectories) for frontier model research via the OpenClaw agent framework.
- o Driving an autonomous AI agent through realistic tasks guided by synthetic personas, annotating each step as Correct / Incorrect / Redundant.
- o Executing developer-adjacent workflows: browser automation (Selenium, Playwright), API interactions, and Linux scripting tasks.

PROJECTS

Haleem — Luxury Perfume Brand UI | [Live Demo](#) (*Freelance*)

March 2026

- o Designed a high-fidelity luxury brand UI with immersive product showcases, animated transitions, and a fully responsive layout using Tailwind CSS and Framer Motion for polished micro-interactions.
- o **Technologies:** React, Tailwind CSS, Framer Motion.

SyncSpace — Real-Time Collaboration Platform | [GitHub](#) | [Live Demo](#)

February 2026

- o Architected a scalable WebSocket infrastructure for 10,000+ concurrent users using Redis Pub/Sub for distributed event propagation and presence tracking across nodes.
- o Deployed MongoDB Atlas Replica Set with compound indexing and cursor pagination for high availability, automatic failover, and optimized message retrieval at scale.
- o **Technologies:** React 18, TypeScript, Node.js, Express.js, Socket.IO, WebRTC, MongoDB, Redis, Cloudinary, JWT, Google OAuth 2.0, Vercel, Render.

Rideshare Hub — Carpooling Platform | [GitHub](#) | [Live Demo](#)

February 2026

- o Built with Next.js 15 App Router and Server Actions, eliminating a separate REST API layer with direct server mutations, dynamic rendering, and cache invalidation.
- o Structured an npm monorepo with shared TypeScript models enforcing type contracts, OTP-based auth via HTTP-only cookies, and Pusher for real-time notifications.
- o **Technologies:** Next.js 15, TypeScript, MongoDB, Pusher, Leaflet, Framer Motion, Tailwind CSS, Nodemailer, Vercel.

Loan Management System — Financial Platform | [GitHub](#) | [Live Demo](#)

February 2026

- o Modeled a 5-state loan lifecycle (pending, sanctioned, disbursed, rejected, returned) with embedded approval chain logging for full decision traceability.
- o Enforced role-based route guards and secured with 24-hour JWT sessions, time-bound OTP verification, and bcrypt-hashed staff credentials.
- o **Technologies:** React, Node.js, Express.js, MongoDB, JWT, Bcrypt, Nodemailer, Vercel, Render.

CERTIFICATIONS

- o Micro1 Certified — Backend JSON Schema Developer | [Certificate](#) March 2026
- o Oracle Data Platform 2025 Certified Foundations Associate | [Certificate](#) January 2026
- o Cloud Computing, NPTEL IIT Kharagpur | [Certificate](#) October 2025
- o CodeSmart: Foundations and Data Structures | [Certificate](#) July 2025
- o Code-A-Hunt Hackathon — Coding Blocks LPU | [Certificate](#) February 2024

ACHIEVEMENTS

- o **NPTEL Elite Performer:** Achieved Elite certification with a 71% score in Cloud Computing from IIT Kharagpur.
- o **Finalist, Code-A-Hunt Hackathon:** Competed against inter-university engineering teams and advanced to the finalist round.

EDUCATION

- o **Lovely Professional University** Phagwara, Punjab
B.Tech - Computer Science and Engineering | **CGPA: 6.6** August 2023 – Present
- o **Narayana Junior College** Bobbili, Andhra Pradesh
Intermediate (PCM) | **Percentage: 81%** April 2022 – March 2023
- o **Bhashyam High School** Salur, Andhra Pradesh
Matriculation | **Percentage: 100%** April 2020 – March 2021
